

SICKLE CELL AWARENESS SUNDAY

Sickle Cell Sunday was truly a blessing for everyone from the Sickle Cell foundations' representatives, the people who attended worship and heard the powerful preaching and testimony to the people who donated blood during the blood drive. It was awesome!

Lauren James, Life Blood Coordinator, said, "Mississippi Boulevard Christian Church is one of the healthiest churches in the Memphis community. When we come to MBCC, we know we will not have as many donor rejects for blood donations because the health of the people in the church is very good. Pastor Frank is to be complimented for what he is preaching and teaching his congregation about being healthy."

Each time Life Blood schedules a blood drive they set goals for the location. MBCC exceeded each goal set by Life Blood for Sickle Cell Sunday's blood drive. Life Blood goals were as follows:

	Life Blood Goal	MBCC Results
Sign-ups	80	81
Able to donate	46	48
Finished the Process	40	42

Lifeblood was very pleased with the results. I thank you for showing your faith by giving blood that saves lives every day.
